

YELLOW
DOOR
ENERGY

AN ADENIUM CAPITAL COMPANY

Distributed Solar Investor

Oct 2017

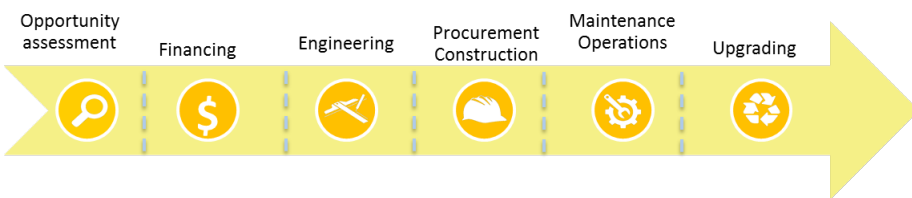

Yellow Door Energy is a Solar Utility

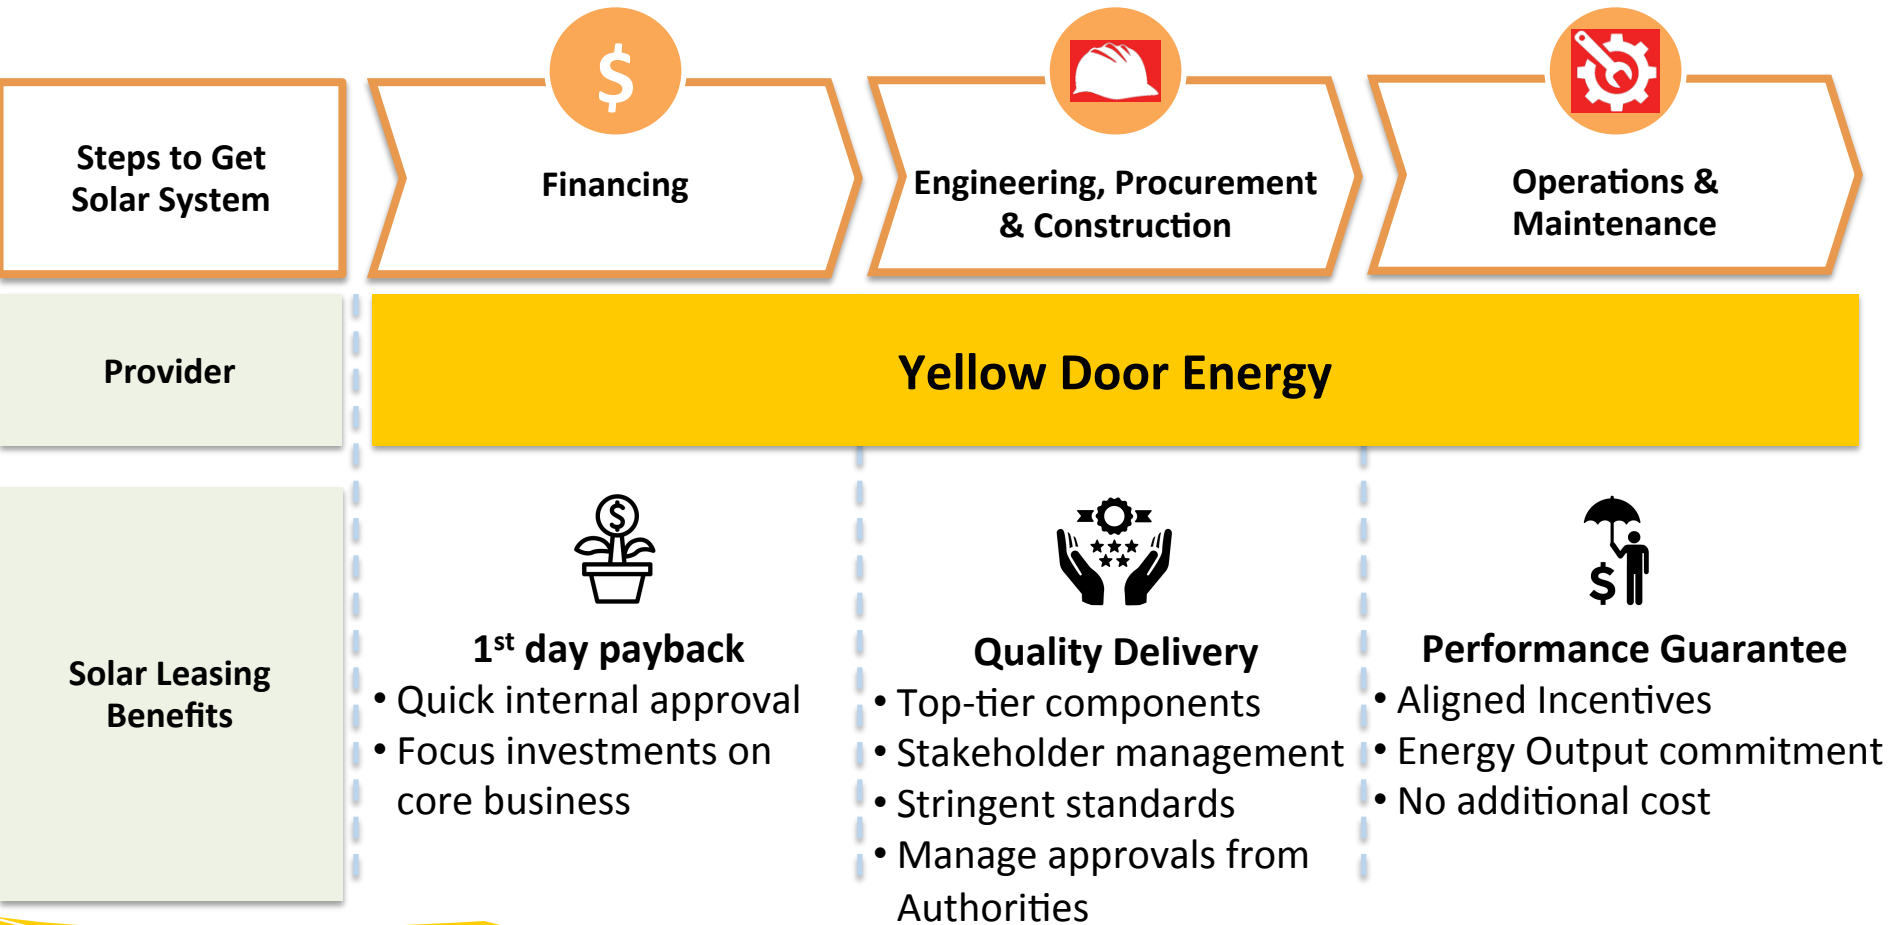

We finance, design, build, operate and maintain solar assets.

- Yellow Door is now **investing in solar net metering projects** in the UAE and Jordan, including both rooftop & wheeling projects
- We engage with businesses and institutions that are looking to reduce their electricity costs and lock-in low prices with clean solar energy
- We commit on long-term relationship with customers being their only interface when it comes to solar from the opportunity assessment stage until their system lifetime end

Yellow Door Energy's interests are always aligned with the customers.
